

We are here to serve and grow the local church:

We have put this lunch on today because we are here to serve and to grow the local church. We are the only local Christian Media Broadcaster on the South Coast and we reach around 30,000 people on a weekly basis, - a large percentage of which are not Christians. We have the capacity to reach over 300,000 people in our two regions at any given time of day or night. So, led by the Holy Spirit a person, Christian or not, can tune in and hear the right thing at just the right time.

One time a man was driving up to a mountain where he was planning on jumping off it to kill himself. He happened to tune into 94.1FM on the way up and heard one of the 'God Spots' that we play every hour. He was so moved by what was said in that 60 second spot that he stopped the car and called a Christian friend who was then able to help him get his life back together.

Another time Shannon took a call from a lady who lived on an isolated property. She whispered on the phone as she explained that she hardly had any contact with the outside world and wasn't allowed anything to do with Christians. When her husband would go to work she would turn on the radio in the garden or kitchen and listen to the teaching and uplifting music and messages on 94.1FM. She said that we were her only contact with anything Christian, and then sounded fearful as she quickly said 'I have to go' and hung up the phone.

94.1FM is always there. 24/7 we broadcast the Gospel message of Jesus Christ throughout the South Coast. We do reach more people on a daily basis than all of the local church congregations put together - and at least 20% of our listeners are not Christians. But we are not a church - and we are not trying to be one. And I am certainly not a Pastor!

We are an effective, evangelical media ministry whose sole purpose is the same as yours - to fulfill The Great Commission of Jesus Christ. To see people saved and to see the local churches grow. If we are not serving and growing the local church then we are a useless ministry. But all the time we hear how we have changed the lives of many thousands of people on the South Coast.

We act as a bridge between non-Christians and the local church. We are a powerful tool for the local church to use and to see more and more people come to know Christ as their personal Lord and Saviour.

Media is very powerful and influential. Our thoughts, our philosophies and our daily lives are changed by what we see on TV and in Cinemas as well as the music and comments we hear on the radio. It is so important to have a Christian media voice in our region. 94.1FM is the Christian media voice on the South Coast and we will bend over backwards to support and bless and grow the local churches. We are the easiest and cheapest way for local churches on the South Coast to reach people using the media. You would be crazy to not take advantage of a media broadcaster governed and operated by Christians - particularly one who wants to support and grow the local church.

Are we perfect? - No. But neither are you. So together in our own imperfection and the grace of God - let's work together - to see many more people Saved on the South Coast.
